## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In regard to claim 1, the terms "tips and barbs" renders the claims vague and indefinite since typically a hook will only have a single tip and a single barb.

### ***Claim Objections***

3. Claim 1 is objected to because of the following informalities:

Claim 1, line 3, the second occurrence of "or" should be changed to "of".

Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1, 2 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Japanese Pat. No. 2001-314137 to Takamura.

Takamura discloses a fishing hook (see Figs. 1, 2) made of a composition consisting essentially of titanium alloy (fine wire of a titanium alloy).

6. Claims 1, 2 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Hoben 6,691,449.

Hoben discloses a fishing hook (10) made of a composition consisting essentially of titanium (titanium wire).

7. Claims 1, 2 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Fujii et al. 5,526,603.

Fujii et al. discloses a fishing hook (A1) made of a composition consisting essentially of titanium (titanium).
